MULTI-POINT LOCKS – 2 & 3 POINT

All latches on this page may be used on right- or left-hand installations. All center cases incorporate a stainless steel spring.

No. 5646-X2XX*
2-point latch with round rod plus rubber antirattle grommets in the rod guides. Note that rod guides may be inverted for use as strikes. Has zinc aluminum tumbler for lighter weight and cost.
Finish: Zinc-plated

No. 5658-X82X*
2-point latch with flat rod connected to tapered take-up slide bolts. Has zinc aluminum tumbler for lighter weight and cost.
Finish: Zinc-plated

Also available with malleable iron tumbler in center case. To order, remove “X” from in front of 2. Example: No. 5646-2XX.

No. 5644-6
Inside handle for 2- and 3-point systems.

For details, see engineering drawings on next page.

MULTI-POINT LOCKS – 2 & 3 POINT

No. 5611-82X*R&L
This 3-point latch is designed for lightweight metal or wood doors. With its simplified all-steel construction, it is easily attached by means of screws, bolts, rivets or welding. The center case has detents for positive open and close positioning.

The rods are easily attached or removed without tools; with the rod in a horizontal position, simply place the hole in the flat end of the rod over the pins in the center case, swing the rod to a vertical position and attach the rod guides.

Available in right- or left-hand. Specify when ordering.

For use with a variety of handles having a 5/16" shank.
Finish: Zinc-plated
Weight: 2 lbs. each

*82X Indicates 4 sets per box.

No. 1-5646-54
Rod guide assembly for 5/16" diameter rod with spring to reduce rattle. Zinc finish.

MULTI-POINT LOCKS – 2 & 3 POINT

**No. 560-82X**

This unique, light-duty 2-point squeeze dead bolt latch is intended for use on lightweight compartment or cabinet doors. It incorporates a zinc center case, 5/16" aluminum rods, and stamped steel guide brackets and strike points.

The latch is readily activated with a simple two-finger squeeze. This retracts the end bolts from the strikes (whether the ones shown, or a slam-type strike, such as that illustrated).

The center case is easily attached by means of a steel mounting bracket using two self-tapping screws.

Weight: 3.25 lbs.

Can be used with adjoining key-locking cylinder No. 560-61P5.

### MULTI-POINT LOCKS – 2 & 3 POINT

**No. 5613-82X R&L**  
Right-hand shown  
Slam-action latch for drop and swing doors.  
Weight: 2.32 lbs. each

**No. 5613-XP8R&L**  
Same as above, but with No. 565698-5 cable (two 3-foot lengths) instead of rod.  
Weight: 1.13 lbs.

**No. F-R-565698-82X**  
Right hand, one flush & one offset slam latch

**No. 5613-82X R**  

**No. F-565698X-P8R&L**  
Is furnished with two 3-foot lengths of cable (No. 565698-S) to connect center case with end bolts. Furnished standard with flush bolts on both ends.  
(Picture)

**No. F-565698**  
Two-point slam latch with flush end bolts and rods.

**No. FO-565698-82X R&L**  
Has center case connected to end bolts with flat rod. Furnished with flush upper bolt and with lower bolt 9/16” offset from back of case. If so desired, these latches can be furnished with upper and lower bolts flush (No. F-565698-82X), or with upper and lower bolts offset (No. O-565698-82X).  
(Print)

**No. 26-565698-82X R&L**  
Same as No. F-565698-82X, but with reverse bevel on flush type slide bolts.  
All center cases are well suited to be used with any 5/16” square handle.

Slam-action latch with tapered slide bolts for light panel doors. Specify right- or left-hand application. Illustration shows right-hand.  
Weight: 3.06 lbs. each

**Note:** Also available 30° angle bolt assembly.  
No. 34-565694-55XU  
Weight: 0.69 lbs.

MULTI-POINT LOCKS – 2 & 3 POINT

REMOTE RELEASE MECHANISM

Mechanism that is designed to be used with either rods or cables. Can interface with multiple styled handles and the actuation effort can be varied by use of different internal springs.

Materials: Cold-Rolled Steel with Zinc Finish
For Use On: A wide variety of applications and on various size compartment doors.
Can be used in conjunction with 600 style Bunk Latch or Other Remote Latch Mechanisms.

| FLBLUA01 | Cold-Rolled Steel with Zinc Finish |

94 2-POINT DOOR LOCK KIT
- Steel construction/zinc finish
- (1) 94 center control
- (2) 94 36" rods
- (2) 90 flush bolts
- Accepts 5/16" square shank
- Available with various rod lengths
- Available in stainless steel
MULTI-POINT LOCKS – 2 & 3 POINT

TWO & THREE POINT DEADBOLT ROD LOCK

TWO POINT DEADBOLT ROD LOCK

No. 6011-001 With 2 ROD GUIDES
All steel construction. For use on wood or metal doors. Furnished with two 36", 3/8" Dia. rods. 48" rods also available. Reversible for left or right hand doors. Spring holds rods in open or closed position. Furnished with anti-rattle rod guides.
Finish - Zinc plated.
Weight - 3-3/4 lbs.

TWO POINT DEADBOLT LOCK W/SAFETY RELEASE

No. 6011-001-S With 2 ROD GUIDES
Same as above but with safety release and inside handle.
Finish - Zinc plated
Weight - 4-1/4 lbs.

THREE POINT DEAD BOLT ROD LOCK

No. 6013-001 With 2 ROD GUIDES
Same as two point shown above but with 3rd locking point on center latching mechanism.
Finish - Zinc plated
Weight - 4 lbs.

THREE POINT DEADBOLT LOCK W/SAFETY RELEASE

No. 6013-001-S With 2 ROD GUIDES
Same as above but with safety release and inside handle.
Finish - Zinc plated
Weight - 4-1/2 lbs.

</tbody>
</table>

All other dimensions shown on individual component pages. Centre bolt withdraws by 11mm maximum.

2/3-WAY SLAM SYSTEMS

These versatile systems are assembled on site from standard end-latches, together with centre case (opposite) and connecting bars. The three slam bolts act together and are withdrawn simultaneously.

Left and right-hand versions are identical apart from position of centre bolt and direction of rotation of centre follow-bush. 2-way versions do not have centre slam-bolt.

System slams shut, is opened by inside/outside handle or T-key. It can be slammed even when handle is locked, due to ‘free movement’ allowed by link bars.

Rotation of centre follow-bush withdraws slam bolt fully into case, also withdraws links at each end, which operates slam latches. System is handed by position of centre-bolt and direction of operation of follow-bush.

Components are fully plant-on, with ‘quick fit’ attachment of link bars to centre case. Plain end should be cut and drilled as required: rivets and washers are supplied with kit.

Zinc-plated throughout.

- Centre bolt omitted for 3/18343.
- Bolt can be reversed or extended to special request.
- Alternative end latches.
- Special link bars to order.
MULTI-POINT LOCKS – 2 & 3 POINT

No. 4-2525-UR
Furnished standard with (2) 48" long double reinforced welded rods.
Other versions available.  
Left-Hand Opposite

No. AL5-2525-UR  
Furnished with (2) aluminum rods and end bolts.

No. 4-2525-50R&L  
Optional Center Cases for Series 2525 Roller Latch. Other combinations available.

No. 4-2525-50R&L is the most commonly used center latch. The inside handle is attached easily by centering over hub and attaching two bolts. The stainless steel roller extends outward 2-5/16". The latch has (4) .28" dia. mounting holes, is spring-loaded and designed to be used with an inside release.
Finish: .0003 cadmium with yellow chromate per QQP416 Type II, Class II.  
Weight: 3.35 lbs.
MULTI-POINT LOCKS – 2 & 3 POINT

No. 2500-U

A sturdy latch activated by any handle with 5/16" square shank. Two additional rods, channels or cable may be attached for multipoint latching.

Finish: Zinc-plated with yellow chromate
Weight: .21 lbs.

No. 2500-1

Universal center latch similar to 2-2500-1. No need to order right or left.

Finish: Zinc-plated with yellow chromate
Weight: .31 lbs.

No. CL1-3700-1

A unique variation on the No. 2500-1 center latch. The nylon roller allows smoother, more noise-free action. In addition, the roller can be adjusted for precise fit.

Finish: Zinc-plated with yellow chromate
Weight: .22 lbs.
MULTI-POINT LOCKS – 2 & 3 POINT

No. 16722-50PK

Cast end fitting with nylon rollers designed for 5/16" round or square rod applications, the nylon roller offers ease of actuation of any dead bolt latch. Mounting is achieved by inserting the retaining clip through the side of the casing and inserting the rod. The rod can be further retained by tightening the set screw on the side of the cast body. The design allows the user to use straight rod cut to length and add the end fitting as required. Zinc finish.

No. 16722-50PK

Patent Pending

113 DOOR LOCK KIT

- Steel construction/zinc finish
- (2) 35" roller rods
- (1) 113 center cam
- (2) "L" brackets
- (2) 113 shoulder screws
- Accepts 5/16" square shank
- Available in aluminum
- Specify no. 113-6 for heavy cam
- Available with roller cam
- Specify no. 113-48 for 48" rods
- Available with stainless steel rods

optional cams are available with an adjustable bushing.

This eliminates the need for a threaded shaft, thus reducing cost.

OPTIONAL CAMS
MULTI-POINT LOCKS – 2 & 3 POINT

No. 5624-U
For large, heavy door applications which need to stand up under strenuous service use.

Three-point locking. Liberal slide bolt travel assures a positive grip. Can be used on right- or left-hand installations.

Recommended outside handle is No. 5624-52 Padlock type with 5/8" square shank. Handles must be ordered separately.

Finish: Zinc-plated

No. 5631-UR&L
With rods.

No. 5631-P24R&L
Same as 5631-UR&L less rods.

No. 5631-51R&L
Center case.

No. 5631-14
48" upper rod
32" lower rod
3/4" thickness of slide bolts
1-1/2" width of slide bolt cases
364 lbs. weight each

No. 5631-15
48" upper rod
32" lower rod
3/4" thickness of slide bolts
1-1/2" width of slide bolt cases
364 lbs. weight each

No. 5624-P24
Same as 5624-U except less rods.

No. 15924
Keeper

Other versions available.

</tbody>
</table>

No. 5631-UR&L Heavy-Duty 3-Point Door Lock.
Fastens doors at top, bottom and center. Lock cannot work open because a trigger automatically secures rods in closed position and only a deliberate turn of handle from base releases them. Slide bolts extra heavy with a travel of 1-1/2" to furnish a good grip in body sills.

Cases made of heavy gauge steel. Rods are flat steel and lie close to surface of door. Can be used on doors up to 3" thick and 7-1/2" high. Also easily fitted to thinner and shorter doors. Available in right- or left-hand. Indicate hand required when ordering.

Recommended outside handles are No. 5624-52 Padlock type. Handles ordered separately.
