

MULTI-POINT T-LATCHES

No. 15-8400-SSR

No. 2-8400-SSR

No. 2-8400R-SSR

Product features:

- Z-bracket is riveted to the T-handle receptacle. Elimination of the welds means improved strength and security.
- 8400 Series eliminates burn marks in the receptacle, due to welding.
- Water resistant O-ring design limits water penetration into the compartment area (standard on all 8400 Series T-handles).
- Available in industry standard key series or double-bitted automotive style keys.
- Available in a carbon or polished stainless steel. (Riveted on stainless only.)
- Other options available are blind mount studs, spring loaded cylinder cap, offset or v-grooved cams.

No. 8004-R&L

Single-point, key-locking, folding T-handle.

No. 2-8004-R&L

Same as 8004 except with four 13/64" dia. mounting holes on 3-5/16" x 3-7/8" centers.
